

CINCINNATI'S  
OWN  
MODULAR  
N-SCALE CLUB

(FOUNDED 1984)

# Welcome to the Queen City -N-gineers!

In early 1984, several model railroaders collaborated to form a club using the concept of a modular N-scale layout.

The modular layout utilizes a four mainline system to maximize operations. Each module is 42" deep to allow for plenty of action off the mainlines.

For anyone interested in model railroading, we offer:

- **Bi-monthly meetings**
- **Public showing of the modular layout**
- **The opportunity for members who do not own a module to operate on the club layout**
- **A forum to exchange railroading ideas**
- **Bi-monthly newsletter**
- **Annual club event**
- **Fun for the whole family**

The Queen City -N-gineers is a member of the National Model Railroad Association.

We welcome any interested in N-scale model railroading. For more information, please talk to a club member and fill the adjacent form.

President: Danny Cornett  
Secretary: John Shields

Thank you for your interest in the Queen City -N-gineers!

**For more information, please fill in this form and return it to a club member.**

Name: \_\_\_\_\_

Address: \_\_\_\_\_

City: \_\_\_\_\_ State: \_\_\_\_\_ Zip: \_\_\_\_\_

Road Names Modeled (if any): \_\_\_\_\_

Scales modeled: (circle) G O S HO N Z

I would like to join the club.

I would like to attend a meeting.

Please send more information.
